

Please Pray And Fast During “40 Days For Life” With Americans Throughout Our Nation

Day 1 – September 22, 2010

Go, therefore, and make disciples of all nations. Matthew 28:19

Heavenly Father, thank You for this opportunity to join my prayers and fasting with those throughout our country for the end of legalized abortion in America. Have mercy on us all for any time that we have not stood up for life in the past.

Dear Jesus, I pray for those who are in vigil outside abortion clinics in 238 cities throughout our nation during this 40 Days for Life Campaign. Give them the right words and the right presentation to change the hearts of pregnant girls and women that they will not go through with their planned abortion.

Come Holy Spirit; renew our nation. Help us with our community outreach so that we might educate and touch the hearts of the apathetic and the pro-choice through our prayers, fasting, and constant vigil. Convert President Obama to our pro-life cause.

Day 2 - September 23, 2010

So God created man in His own image; in the image of God He created them. Genesis 1:27

Heavenly Father, how awesome it is that You created us in Your image! This is the basis of our human dignity from which flows our human rights. Forgive our nation for not recognizing the right to live in the preborn human.

Dear Jesus, I pray for our legislatures and judges that they will make laws and judge according to Thy will. Remind them that the Declaration of Independence declares the “inalienable” right to life for all men, where the word “men” is taken to refer to all human beings, born and preborn in all stages of development.

Come Holy Spirit upon all pro-choice people, especially President Obama and our elected officials that they explicitly exclude funding of abortion from health reform. Instill in them the understanding in what science says - that a human being exists at the moment of fertilization. For the same scientific evidence that proves born persons are human, also proves the preborn to be human.

Day 3 - September 24, 2010

And God said to them, “Be fruitful and multiply, and fill the earth and subdue it, and have dominion over the fish of the sea and over the birds of the air and over every living thing that moves upon the earth” Genesis 1:28

Heavenly Father, could a loving God command us to be fruitful and multiply into over population? I pray for those who promote the myth of over population, encouraging abortion for the poor, disadvantaged, and selected races in our country. For Your Son, Jesus, was so poor to be born in a stable, and born a stranger in a distant land from that of His mother’s.

Dear Jesus, I pray for those who see abortion as a method of birth control and even population control of “less desirables.” I pray for the world organizations that are requiring that Third World countries accept abortion programs in order to qualify for financial assistance that they change this atrocious requirement. I pray that President Obama will reinstate the Mexico City policy, keeping federal monies from going to overseas organizations that promote abortions.

Come Holy Spirit upon all pro-choice people, especially President Obama, so that they will understand that when You gave us dominion over life, it was to care for life not to destroy life, to be stewards of life not to own life.

Day 4 - September 25, 2010

For You formed my inward parts; You covered me in my mother’s womb. Psalm 139:13

Heavenly Father, You have marvelously designed the womb to be a place of protection and the perfect environment as we go through over half of our stages of development. Forgive our nation for discriminating against the preborn - not because of race, color, or religion - but because of residence in a womb.

Dear Jesus, I pray for those who deliberately confuse the facts about embryonic stem cell research for financial gain. They claim that embryonic stem cells are so superior to adult stem cells because they can form any cell in the human body, blatantly leaving out the premier fact that this has only happened in the perfect environment of the mother’s womb – never even once in a laboratory in over 25 years of experiments, wasting billions of dollars.

Come Holy Spirit upon all Americans, especially President Obama, so that they will understand the differences between embryonic and adult stem cell research and not only say “NO” to funding of embryonic stem cell research but also make it illegal.
