

Please Pray And Fast During “40 Days For Life” With Americans Throughout Our Nation

Day 1 – March 5, 2014 / Wednesday

Go, therefore, and make disciples of all nations. Matthew 28:19

Heavenly Father, thank You for this opportunity to join my prayers, fasting, and community outreach with those throughout our country for the end of legalized abortion, euthanasia, and embryonic stem cell research. I pray for our legislatures that they will pass laws against these intrinsic evils and our judges that they will decide in favor of life.

Dear Jesus, I pray for those who are in vigil outside abortion clinics in 253 locations during this 40 Days for Life Campaign. Give them the right words and the right presentation to change the hearts of the pregnant girls and women so they will not go through with their planned abortion. Give the 64% of moms being coerced into having an abortion the courage and support to say, “No.”

Come Holy Spirit; renew our nation through this 40 days for life. Instill in us all, an awe for the sanctity of life.

Day 2 - March 6, 2014 / Thursday

So God created man in His own image; in the image of God He created them. Genesis 1:27

Heavenly Father, how awesome it is that You created us in Your image! This is the basis of our human dignity from which flows our human rights, beginning with the right to life. Forgive our nation for not recognizing the preborn's right to live.

Dear Jesus, I pray for our legislatures and judges that they will consider that the Declaration of Independence declares the “inalienable” right to life for all men, where the word “men” refers to all human beings, born and preborn.

Come Holy Spirit upon all pro-choice people, especially President Obama and our elected officials, and instill knowledge of the scientific fact that a human being exists at the moment of fertilization. For the same scientific evidence that proves born persons are human, also proves the preborn to be human.

Day 3 - March 7, 2014 / Friday

And God said to them, “Be fruitful and multiply, and fill the earth and subdue it, and have dominion over the fish of the sea and over the birds of the air and over every living thing that moves upon the earth” Genesis 1:28

Heavenly Father, could a loving God command us to be fruitful and multiply into over population? Please stop those who promote the myth of over population, encouraging abortion for the poor, disadvantaged, and selected races in our country and around the world. For Your Son, Jesus, was so poor to be born in a stable, and born a stranger in a distant land from that of His mother’s.

Dear Jesus, I pray for those who see abortion as a method of birth control and population control of “less desirables.” I pray for the world organizations that are requiring Third World countries accept abortion programs in order to qualify for financial assistance. I pray that they change this atrocious requirement. I pray for President Obama that he will reverse his pro-abortion policies and reinstate the Mexico City policy to keep federal monies from going to overseas organizations that promote abortions.

Come Holy Spirit upon all people who are pro-choice and pro-abortion. Grant them the understanding that when You gave us dominion over life, it was to care for life not to destroy life, to be stewards of life not to own life. Enlighten our judges that no American should be forced to provide or pay for insurance that covers drugs that cause abortion as is currently a part of the HHS law.

Day 4 - March 8, 2014 / Saturday

For You formed my inward parts; You covered me in my mother’s womb. Psalm 139:13

Heavenly Father, You have marvelously designed the womb to be a place of protection and the perfect environment as we go through over half of our stages of human development. Forgive our nation for discriminating against the preborn - not because of race, color, or religion - but because of residence in a womb.

Dear Jesus, I pray for those who deliberately confuse the facts about embryonic stem cell research for financial gain. They claim that embryonic stem cells are so superior to adult stem cells because they can form any cell in the human body, blatantly leaving out the premier fact that this has only happened in the perfect environment of the mother’s womb – never even once in a laboratory in over 30 years of experimentation. Help us appreciate the wonder of human life in the embryo from which our inward parts are formed.

Come Holy Spirit upon all Americans, especially our lawmakers, so that they will understand the differences between embryonic and adult stem cell research and not only say “NO” to funding of embryonic stem cell research but also make it illegal.
